Consigli Opens Connecticut Office

Consigli has opened an office in Enfield, Conn. to better serve clients in Connecticut and Western Massachusetts.

The Enfield location at 5100 Bigelow Commons will build on the firm's 104-year history as a family-owned business, and compliments its focus on delivering exceptional service to its clients across New England and New York State.

In Connecticut, the company recently completed a \$32 million restoration and renovation of the Trinity College Long Walk, along with infrastructure upgrades to the historic buildings. Additionally, the Enfield office oversaw imaging lab renovations at Baystate Medical Center in Springfield and is currently engaged in construction of the new Armed Forces Reserve Center at the Westover Air Reserve Base in Chicopee.

"Consigli will continue its commitment of providing exceptional construction services to its clients," said Mike Walker, area manager of the Enfield office. "Our history as a company that contributes to its community as both a business and a benefactor will be enriched with our newest location in Connecticut." ■

For additional information, contact Connecticut area manager Mike Walker at mwalker@consigli.com.

Multiple Projects Win Awards

2008 was a significant year for Consigli and its clients, with numerous awards recognizing projects like the Bowdoin College Museum of Art and the Dana-Farber/Brigham and Women's Cancer Center at Milford Regional Medical Center.

The **Bowdoin College Museum of Art** recently restored and expanded by Consigli and architect Machado & Silvetti Associates, was recognized with multiple awards. *Building Design & Construction* magazine gave it "Gold" level recognition in its annual Reconstruction Awards, while the Boston Society of Architects awarded the project a Design Award for 2008. The Chicago Athenaeum also honored the project with a 2008 American Architecture Award.

The **Project Place Gatehouse**, targeting LEED® Silver certification and designed by Hacin & Associates, also received two awards. The American Institute of Architects named the Gatehouse a recipient of its annual Housing Design Award, while the Brick Industry Association awarded it with a Brick in Architecture Gold Award.

The **Dana-Farber/Brigham and Women's Cancer Center** at Milford Regional Medical Center was recognized by the Health Care Facilities Symposium ■

with a "User Centered Distinction Award" for its approach to creating an environment that recognizes the needs of a patient upon entering a healthcare facility, both for the purpose of treatment as well as comfort. Designed by Steffian Bradley Architects, the project incorporates numerous green elements. ■

Two of the several award-winning projects for Consigli include The Project Place Gatehouse (inset above) and the Dana-Farber/Brigham and Women's Cancer Center at Milford Regional Medical Center.
